

# GroGreen® Feed & Shine® Roses

Foliar fertiliser for roses (Ready to use).

**Netto: 750 ml**

Bestillingsnr.: 30650  
(12 pcs. per carton)

**Feed & Shine®**

## Product information:

GroGreen® Feed & Shine® Roses Ready-to-use (RTU) is a specially-developed micronutrient fertiliser for all types of roses (except for the Rosa Rugosa group).

Applied once a week, it will ensure that roses stay healthier and more resistant towards leaf fungi such as rust, mildew and blackspot.

GroGreen® Feed & Shine® Roses is the extra supplement that, together with organic fertiliser, ensures that your roses constantly thrive.

The product is environmentally-friendly and gentle towards roses and nature in general.

GroGreen® Feed & Shine® Roses contains micronutrients, seaweed, iron, the plant oils tea tree, clove and citronella, and surfactant.

The documented effect of the micronutrients gives strong, healthy root and plant growth, and efficiently prevents iron, copper, magnesium, manganese and zinc deficiency.

The plant oils give the leaves a beautiful appearance, protect them against wind and weather, and keep them dry. The surfactant ensures that the plant fully absorbs the nutrients.

Untreated

Treated

Day 1 - Untreated

Day 2 - Treated

The photos were taken early in the morning before (day 1) and after (day 2) treatment with GroGreen Feed & Shine Roses.

## Use:

- The product is mixed with water in the ratio 1:100 and ready to use.
- Apply once a week from May to September.
- Shake the mixture well and spray it on all leaves until it drips off.
- The amount to use depends on the plant size.
- Spray on dry leaves and in dry weather.
- Do NOT spray in direct sunshine.
- For reuse of our "ready-to-use" bottle:

Pour 1/5 dosingcap (8ml) of GroGreen® Feed & Shine® Roses Concentrated into the bottle and top up with water until full (1:100). Shake the mixture well and use within eight days.

## Guaranteed content:

GroGreen® Feed & Shine® Roses Concentrated is a fertilizer with EDTA\* chelated micronutrients, seaweed, natural plant oils and surfactant. Green in colour. pH value of the product is 7.5.

## Ingredients other than plant nutrients:

Tea tree oil 0.005%, citronella oil 0.005%, clove oil 0.005%, seaweed 0.0175% and surfactant 0.15%.

## Storage:

Store frost free.

## Application period:

J F M A M J J A S O N D
